

Case Study

Bus Drivers Link Up

We were delighted to be asked to manage the coordination and delivery of the Bus Drivers Link up party for 2,500 people.

The event was held at a five star hotel in London and involved liaising with the hotel, the client and suppliers to bring about a great event.

Our event manager coordinated and lead the event to seamlessly integrate bar service, catering, venue management and the total guest experience at ensured the party was enjoyed right through to the 3am finish.

Although the organiser was contactable and onsite, our event manager lead the event to ensure seamless service, leaving the organiser to enjoy themselves and spend time with their guests.

Our production management team provided a full range of event management services including:

Venue Liaison

Coordinating and liaising with the venue to meet their high standards and requirements

Services Coordination

Coordinated all front and back of house services to bring together seamless delivery

Guest Enjoyment

Ensured guest welfare and care on the day

Suppliers

Liaised with and coordinated all suppliers and services to bring the event together
